SUBJECT : Dispatch of Vehicles

25X1A

1. Reference is made to telecon with [REDACTED] 29 January 1962, with regard to Detachment "B" dispatch control of assigned vehicles.

25X1A

2. A message from "B" makes reference to a recent [REDACTED] inspection at which time the team questioned the authority of "B" to dispatch assigned vehicles at their discretion. As a result "B" has requested we apprise them of the authority in writing, that allows the concerned unit to control the dispatch of their assigned vehicles.

3. Research by this office failed to reveal any letter of agreement or understanding with USAFE or the concerned host base which authorizes our units to control the dispatch of vehicles. In view of this, this office sent a message to "B" stating that it is the policy of this Headquarters for our unit to control the dispatch of our vehicles. We also informed the unit that in consonance with our telecon referenced in para one above, your office will contact USAFE with instruction that dispatch of vehicles be controlled by our unit and that USAFE inform the concerned host base to this effect.

4. Request your office effect necessary coordination with USAFE to authorize our units to control vehicle dispatch as indicated in para three above.
